Subject: Tomorrow and status of permit review

Ex. 6 Personal Privacy (PP)

I gave Mike and Susan a status on permit review (the ones that I have). Here's what I'm working on in case you get any questions (in order of priority):

Non-response- per requester agreement

John Day Dam permit + Lower Columbia River Dam Fact Sheet – should be done with this one by Wed/Thurs

Non-response- per requester agreement

Non-response- per requester agreement

As an FYI – I heard that NPU will be briefing Chris tomorrow to give him a status report on permits. I participated in a meeting with Sally G. and Kevin W. from HQ last week (they were in town). On the more complicated permits (WA Dam permits, **Non-response- per requester agreement**) would give Henry Darwin a heads up that the clock may need to stop on them given all of the legal and technical issues. They also heard that if a permit is kicked into OMB formal review, Henry is more likely to agree to stop the clock. Let me know if you want more info, etc.
